

# **NOTICE OF INTERRUPTION OF THE WATER SUPPLY IN WITSAND: 01 JULY 2021**

There is air locked in our water reticulation system due to upgrades that took place on 30 June 2021. We need to unlock this air to ensure efficient water pressure at each household. To achieve this, we need to close down the water main and bleed all necessary air valves. This may cause a drop in water pressure at all properties. Approximated downtime will be from 17h00-19h00 today. We apologise for the inconvenience and will make every effort to restore the water supply as soon as possible. Kindly contact Jenovaan Booysen at 073 494 2526 or Christopher September at 084 836 1108 should you require further information or clarity.
